## EC-Norm for the safeguarding of toys

Dear customers,

The legislator stipulates that toys must comply with an EC standard and be marked with the „CE“ symbol.

Our items are mainly handicraft materials, i.e. starting materials. Thus, they are not subject to labelling and therefore do not have to comply with the strict regulations that apply to toys (e.g. danger from swallowing small parts such as wooden beads etc.). Please make parents and teachers aware of this issue.

Products that have not been tested and labelled, or products made from them, should generally be kept out of the hands of toddlers under 36 months. Children under age 14 should do handicrafts under adult supervision, by taking the general safety precautions (when it comes to knife, fork, scissors, light ...).

We wish all users many enjoyable hours of crafting and a lot of joy with the things they have made.

All items with a yellow mark are **novelties**.

# When autumn meets colour – heading towards creative heyday

A long walk in the woods - a warming cup of tea - a wood-burning fireplace with flames crackling and flickering softly: autumn is the season when calm is gradually restored. We spend more time indoors. So bring the vivid colours of autumn indoors. And on rainy days, we're making autumn a time for bright creative handicrafts. Strong orange and enchanting yellow colour shades: the autumn meets colour with us, making it more than just a season of golden shades.

Autumn traditionally heralds the start of the creative hobby season: when making lanterns, for example, the abundant creativity of your customers finds expression. With the basic wooden lantern, creative hobbyists have the choice: colourful or natural, decorated in a simple or sophisticated look - everyone can adapt it to their own style and act out their full creativity. Autumn is the time when natural materials are used as craft materials: chestnut figurines, trays decorated with acorns, dried leaves and many other treasures of nature move inside. A creative autumn birthday party for the kids? Then we've got the perfect solution, because the felt and cork elements from our complete craft kit quickly turn into fun forest animals. A great leisure activity, even for the little ones.

And the ever-popular craft activity known as "casting" should not be missing either from the coming autumn season. Silicone is a very practical material for casting moulds, as it is easy to demould. With the new pumpkin-shaped casting mould, your creative-minded customers can cast bowls for jewellery and the like in autumnal pumpkin shapes and design them to their liking.

Autumn is anything but monotonous: with its colours inspiring creativity, lots of beautiful artistic items can come to life.

# Modern meets extraordinary – Advent wreaths for every taste

The sweet smell of biscuits in the house – the first Christmas market visits are around the corner – everyone is getting ready for Christmas: The anticipation of Christmas is growing. Just like Advent calendars, Advent wreaths also show how far Advent has already progressed and how much time is left until Christmas Eve.

Especially during the Advent season, the focus is on sharing: baking Christmas biscuits together, cultivating mutual traditions, spending time together, tinkering and being creative together. And particularly fitting: making an Advent wreath together.

Because with every new candle lit, the anticipation for the quiet time grows. We look forward to a cosy, warm atmosphere, where we can enjoy the silence in the company of our loved ones. And the Advent wreath also shows: It's not long anymore.

And it is up to your customers to decide whether they prefer traditional Advent wreaths, made classically from twigs, or whether they opt for one of the more modern versions. 4 candles, beautifully arranged on a self-moulded tray, decorated with cinnamon sticks and dried orange slices: And you have your modern interpretation of a wreath. And who would have thought that wooden blocks could be used to create beautiful, modern Advent wreaths? Combined with the stick candle holders, you can create an arrangement that heralds the approaching festive season in next to no time.

## BASIS

### **... for modern and classic Advent wreaths**

A good foundation is essential – even for DIY Advent wreaths. Regardless of whether your customers prefer traditional, classic Advent wreaths or pick the option of modern, simple Advent wreath variants: You are sure to find the right materials for your customers here: Straw, vine

and willow wreaths to tie yourself and trays and coasters for modern Advent wreaths. Or how about an Advent wreath made from round wooden sticks? This epitomises the typical Scandinavian Advent season.

## DESIGN

### **Endless combinations**

Create something unique – the best thing for your customers. And when it comes to designing individualised Advent wreaths, creativity is what you need. Give your creativity free rein with our selection. You can pick from fir branches, cones and berries to mistletoe and eucalyptus branches, cinnamon sticks, orange slices or moss: The sky's the limit

when it comes to possible combinations and, needless to say, the design options. The right accessories for every taste. But creativity can be simple, too. If the Advent wreath is created in a modern Scandinavian wooden round stick look, you only need a few design materials.

## CANDLES

### **The must-have for the Advent wreath**

No Advent wreath works without candles – after all, they are what mark the weeks until Christmas and bring us a little closer to Christmas Eve, week after week. While traditional Advent wreaths mainly use pillar candles, modern Advent variations often use stick candles.

Whether using the thick or the thinner candle version, our transfer foils – perfectly suited for Advent – turn simple candles into designer Advent pieces.

# Raysin meets wood –

## Home, sweet home

Make your home beautiful – feeling right at home – at home, sweet home: During the winter and, of course, especially at Christmas, we all want to feel good in our own four walls. And houses, as decorations for the home have become indispensable in recent years, as they symbolise cocooning and cosiness, creating a feel-good character.

Rayher goes one step further, combining the trendy house decoration from the two materials Raysin and veneer wood. Cool and modern, white or black Raysin meets warm natural material. And by combining, we don't just mean putting them together. More importantly, the fact that all products relate to the "house" theme, ensures they are perfectly coordinated. Both the moulds and the wooden decorations are designed to fit together perfectly. Wooden house silhouettes glued onto moulded Raysin houses: Here, warm wood stylishly blends with cool, modern Raysin, creating the perfect combination for Scandinavian flair.

Wooden, light-radiating houses provide even more warmth and cosiness and can be decorated for Christmas or any other season. In next to no time, when placed on windowsills, the various craft kits can be used to create entire villages of light that herald the Christmas season.

A cosy and homely atmosphere – either for you to keep or to give to new neighbours as a gift when they move into their own home. House decorations always go down well.

With a new interpretation, "home, sweet home" also continues in the coming season.

## THE RAYHER FORMEL

### **Raysin + Wood = warmth and cosiness**

Cool, clear, modern Raysin, combined with the natural raw material, wood, creates a unique atmosphere. Timeless,

modern, adaptable to any furnishing style, yet extraordinary, unique and new.

## THE RAYHER WORLD OF HOUSES

### **Perfectly coordinated for perfect results**

Perfectly coordinated with one another. This is sure to delight everyone who loves tinkering. Our house moulds are designed to fit the corresponding wooden houses perfectly. And the Rayher way is really as simple as this: First cast the house with your favourite casting mould. Raysin has been the trendy moulding compound for many years.

Originally, it was only available as a pure, white casting powder, Raysin has also been available in jet black since last season. It dries in next to no time and can then be combined to your heart's content with the matching wooden silhouette or wooden houses, glued together, designed and presented – done! Perfect crafting results guaranteed.

## THE RAYHER LIGHT VILLAGES

### **Atmospheric light for special cosiness**

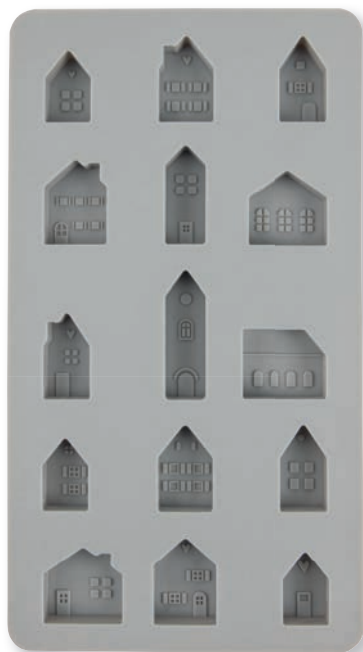

Individual houses turn into entire decorated villages, because combining and expanding is easy as child's play: All the wooden light-radiating house kits fit together perfectly. Decorating for the Christmas season? Want some snow and

glitter? However, even without additional decoration, the wooden houses look great. And the best thing? They still have a right to exist even after Christmas and can be left standing.

# Winter meets candles – Glowing warmth for more cosiness

The day-light hours are getting shorter – the wind is getting colder – and the outside world is plunged into an early twilight grey: We long for warmth, light and cosiness. At this time of year, the flickering light of candles becomes more important. Not only are they a source of light; they also represent a symbol of hope and a touch of magic in the darkness of winter.

Candles conjure up an oasis of calm and well-being in every room. With their soft, flickering light, they create a cosy atmosphere by adding a touch of warmth to our four walls.

Candles are an easy way to set accents and beautify your home. You can create an individual ambience with your choice of colours, shapes and fragrances. A carefully placed candle on the living room table, a gently scented tea light in the bathroom or an atmospheric candle arrangement on the windowsill – every candle contributes to making a house a home.

But candles are a wonderful gift, too. A gesture that says more than a thousand words. A beautifully wrapped candle can bring great joy to a dear friend or a beloved family member. It is not only a decorative element; it's a symbol of warmth and compassion, too. Giving a candle as a gift means adding some comfort and light into someone's life, especially during the cold, dark winter days. With us, your customers are sure to find everything they need to create a feeling of carefreeness and relaxation with a warm candle glow.

## PRESENTING

### **Trays, glass jars & co.**

Needless to say, a candle alone is not enough to create your cosy feel decoration. What should the candle be presented on? Where will it look best? And to keep everything in DIY style, the base – the candle holder – is homemade, too. Our

new candle holder moulds are incredibly versatile. One mould – many possibilities. From a flat, decorative plate, to a holder for stick candles – anything is possible.

## CANDLES

### **Candles in all variations**

Your customers love making their own. There is no doubt that candle moulding will be a hot topic this winter again. Whether pelleted wax that is paraffin-based, made of beeswax or rapeseed wax, the application is identical: Melt in a bain-marie, insert the wick and pour in the liquid wax.

Speaking of wicks: If you are looking for a softly crackling effect, e.g., in metal containers, we now offer wicks made from birch veneer. And if you're in a rush, we have a large range of ready-made candles in many different sizes and shapes.

## DECORATING

### **Creating something special**

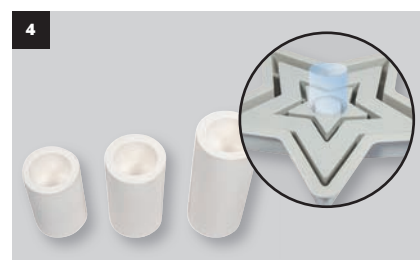

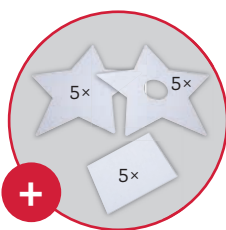

Sometimes it simply has to be special: Particularly colourful or designed or presented in a special way. Transfer foils are perfect for putting personalised words on candles to convey special messages. The popular DipDye technique is also perfect for creating colourful “candle flame” treasures

at Christmas time. Especially in winter, when the sun sets early, candles are more than merely a source of light – they are our faithful companions that warm our hearts and repel the darkness with their glow.

# Jewellery meets Christmas tree – Continuing traditions

The twinkling of the fairy lights – the fragrant Christmas tree – hung with numerous ornaments: Christmas is a feast for the senses and a time to celebrate warmth and family traditions. Christmas tree decorations are designed to touch our hearts and remind us of a nostalgic world of happiness. The Christmas tree decorating tradition is deeply rooted in history, reflecting our longing for light during the darkest time of the year. With apples, nuts and lovingly carved figures, our ancestors brought the tree to life as a symbol of hope and renewal. Today, the Christmas tree is often lavishly and decorated in many colours, enchanting us anew every year.

And it is clear to your customers: If they decide to make their own Christmas tree decorations, it opens up a very personal side of Christmas magic. There is hardly anything more beautiful than creating a little work of art with loving dedication that enriches the home with an unmistakable touch.

Homemade Christmas decorations are a reminder of the precious moments spent together with the family, gathering around the table and creating something beautiful together. Home-made decorations bring back childhood memories and create new mutually-shared memories. Making Christmas decorations is also a time to pause and reflect. It allows us to step out of the hustle and bustle of the pre-Christmas period and savour the moment. That is the true magic of Christmas.

## MATERIALITY

### **Combining allowed**

Filigree, delicate and simple: Raysin also works perfectly as Christmas tree decorations. It can be moulded, demoulded and dried in next to no time and then decorated according to your ideas – just the way you like it. But of course, we will not be neglecting classic wooden and paper ornaments in

the new season either. Christmas tree decorations made from wire? You'll see how they can be combined with your customers' creativity to create extraordinary tree decorations. Feel free to mix and match creatively!

## BRING INTO SHAPE

### **New ideas for the Christmas tree**

Moulded tree decorations? Exceptional and modern! With our new silicone casting moulds, you can cast great pendants with your favourite material in no time at all. Design and decorate to your heart's content – done. Or how about a completely new interpretation of classic paper

stars? Naturally, wood in many new shapes and design options is also a must-have for tree decorations. Christmas tree baubles – made from bent wire with an unusual interior – are a modern twist.

## DECORATE

### **Creativity - the sky is the limit**

A few extra felt ornaments here, a few fir branch ornaments there and plenty of glitter and gold: The Christmas tree can definitely be a little more lavishly decorated this year, as the huge choice makes it hard to decide. So it's a good thing that, when it comes to DIY, you can do whatever you

like. And once the DIY treasures are hanging, we know that the true value of Christmas tree decorations lies not in their glamour, but in the love that has been put into every single knot, every cut and every brushstroke.

# Decoration meets a passion for DIY – Guardian angels, imps and elves & co.

Christmas figures – twinkling lights – a festive atmosphere: At Christmas time, decorating is clearly the top priority. Christmas decorations fill our rooms with warmth, joy and a magical charm. It creates a cosy and welcoming environment, reminding us of the importance of love, family, solidarity, and hope, adding a special touch to our celebrations. The Christmas season provides the perfect opportunity to transform our homes into a cosy and festive oasis: The living room becomes a winter wonderland, the dining room a festive table, and the entrance area a warm welcome for dear guests.

For your customers, the benefit of homemade Christmas decorations is obvious: It is individual, unique and perfectly suited to their own style and taste. Homemade decorations are a pleasure to make and provide a special feeling of satisfaction when you see the finished work. Don't forget: Homemade decorations are the perfect gift, as they come from the heart and light up the recipient's eyes.

On the following pages, we have put together products for you and your customers that can be used to create special Christmas decorations, with magical angels, mysterious worlds of imps and elves, and nativity scenes with a completely new interpretation. Of course, you will also find accessories for Christmas card design and for unusual and special gift wrapping. This offers scope for creativity and is a wonderful way to fill the home with love and warmth.

## GUARDIAN ANGELS

### **More than just a lucky charm**

Guardian angels are the perfect companions at Christmas time. They are supposed to protect us, bless us and act as lucky charms. Whether moulded, stamped or crafted,

whether as guardian angels for special people or for your own Christmas decorations – angels are not only magical at Christmas time.

## WORLD OF IMPS AN ELVES

### **Mysterious and magical**

Imps and elves have been delighting DIY fans for some time now. These cheeky little creatures, who stand for fun and surprises, don't only light up the eyes of children. Here,

fans of these fantasy figure, regardless of big or small, can immerse themselves in their own magical and mysterious world of imps and elves.

## MANGERS

### **... in a new and modern interpretation**

The nativity scene with the manger is the central element of Christmas decorations, as it reminds us of the birth of Christ. A homemade nativity scene – moulded from raysin or in a modern, simple wooden version – is not only fun to

make, but gives Christmas a special meaning, too. When given as a gift to loved ones, the home-made nativity scene becomes a symbol of friendship and solidarity.

## ... AND MORE INSPIRATIONAL CHRISTMAS IDEAS

### **Stamps, pendants & co.**

Sending Christmas greetings to loved ones is simply part of the festive season. With a wide range of Christmas stamps, creativity becomes child's play. You'll also find some

inspiration here on how to wrap Christmas presents in a special way to make sure Christmas is magical.

- Gnome – this Scandinavian creature impresses young and old and is gaining in popularity worldwide
- A wooden gnome door should therefore not be missing in any household in the pre-Christmas period
- At the beginning of Advent, the gnome moves in behind a wooden gnome door

- Amazing stories entwine around this creature: it ensures extraordinary fun, plays tricks, leaves letters or little surprises at night - however the gnome remains hidden and lives unnoticed, because that's the only way to keep its power
- The gnome doors are lovingly designed, thus the magical gnome world can be decorated with all kinds of creative material (little trees, snowflakes, string lights...)

### **Paint - in a new light**

We have provided our paint scheme with a new lick of paint - for you alone! So that we can offer you even more in the way of paints in the future.

#### **OUR PAINT SCHEME ⊕ ITS MEANING:**

- + Streamlined, space- and sales-optimised paint scheme
- + We only have the paints that are really relevant
- + We develop sales-boosting paint trends
- + And your profit in all this: more sales per sqm

Our experts in this field only include convincing paint ranges in our programme which are based on reliable sales and market research data. Our main focus is on a coordinated world of colour shades, updated paint trends and basics, and above all on their application. This makes room on your shelves for many other creative products of Rayher, such as products made of wood and papier-mâché or the trendy casting compounds Raysin, concrete and much more... and at last, but not least, more sales per sqm.

\*\*\*\*\*

### **The „add-on +“: Sustainability**

Times are changing! The topic of sustainability comes to the fore even more within our company philosophy. Our new competent EU partners in the paint industry committed themselves to monitor sustainability at all levels: from raw materials to production and packaging. Short transportation routes are not only good for the environment, but also guarantee rapid delivery and binding delivery times. This means we are able to meet exactly all your needs while ensuring the highest quality. Our partners in the paint industry dispose of their own laboratories and mix all colours themselves, which ensures continuous and consistent quality level.

### Paints for all craft application possibilities

A weather-resistant paint for the pinkish garden gnome, a saliva-proof All-purpose paint for a colourful decoration in the children's room, a bright shimmering paint for the shiny metallic look on a bowl made of concrete or the machine-washable fabric paint for a self-designed bag in the hip street style ...

... with us the user has the choice - but not the agony!

Fabric paint medium  
bottle 80ml

- **Water-based fabric painting medium**
- Create your very own **fabric paint**, the **paint is washproof after sealing it with heat**
- Thanks to its **colourless and transparent** nature, the brilliance of the colours is preserved
- Suitable for light-coloured fabrics with at least 50% cotton (cotton, linen and blended fabrics)
- Matched to the Allround acrylic paint (but not suitable for metallic colours)

**Tips for use:**

- Stir well the paint before use
- Apply the blended colour (mixing ratio - 1:1) using a paintbrush
- Wash out the fabric finish prior to painting and allow to dry out
- After paint application, the fabric must dry for at least 1 to 2 days
- To seal the paint on fabric, it must be ironed inside out (about 4 minutes on cotton setting)
- Wash the fabric inside out at a maximum of 30°C

**35 097 000 (6)**  
Candle painting medium  
bottle 80ml

- **Water-based candle painting medium**
- Create your very own **candle colour** and apply it directly to the wax

Glow in the Dark medium  
bottle 80ml  
light yellow

- **Highly pigmented, light-yellow water-based acrylic paint** for a **luminous glow-in-the-dark effect**
- The paint captures and stores ambient/day light and slowly releases it in the dark (the intensity depends on the amount of light absorbed and the paint coat thickness)
- For **indoor use** and only **conditionally weather-resistant** (coating with clear varnish highly recommended)
- Suitable for light-coloured surfaces such as paper, canvas frames, wood, plastics, plaster, metal...

**Tips for use:**

- Surface should be dry, grease-free and clean
- Stir well the paint before use
- **Paint application at room temperature**
- Prime the surface in white
- **Apply a thick coat of paint** using a paintbrush, spatula or palette knife
- Protect the paint cans from frost
